Application/Control Number: 10/606,156

Art Unit: 3643

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The cited references U.S. Patent No. 1,595,441; U.S. Patent No. 1,668,143 U.S. Patent No. 6,1 12,703 A; U.S. Patent Pub. No. US2004/0092198 A1; U.S. Patent No. U.S. 2,687,302; U.S. Patent No. 5,769,682 A; U.S. Patent Pub. No. US2002/0134318 A1; U.S. Patent No. 1,668,143; U.S. Patent No. 6,609,944 B1; U.S. Patent No. 6,186,095 B1; U.S. Patent No. 3,995,855; PCT WO 90/07961 teach that it is known to have a ball freely floating and completely contained in another ball; that it is known to place a noise making device inside an inner ball contained in an outer ball; that it is known to mount a squeaker in an elastomeric ball wall; it is known for an outer ball to have an air hole; and it is known to enclose a squeaker within an outer flexible shell. In particular, U.S. Patent Pub. No. US 2004/0092198 a continuation in part of U.S. Patent application No. 09/532,665 filed 21 March 2000 discloses in Fig. 5 and Fig. 6 an outer flexible wall, and inner flexible wall, and squeaker. However, applicant's claim contains the language of "consisting of" in the preamble which excludes any element, step, or ingredient not specified in the claim and "consisting of" is defined as closing the claim to the inclusion of materials other than those recited except for impurities ordinarily associated therewith. Therefore, U.S. Patent Pub. No. US 2004/0092198 is excluded because it teaches additional elements not specified in the claim.

The prior art of record all fails to show, and fails to make obvious, either alone and/or in combination A pet toy *consisting of*. (a) an inner flexible elastomer ball

Application/Control Number: 10/606,156

Art Unit: 3643

having an inner ball wall, (b) a squeaker mounted in the inner ball wall, (c) an outer flexible elastomer ball having an outer ball wall, said squeaker being separate from the outer wall, (d) an air hole mounted in the outer ball wall, and (e) the inner ball being entirely within the outer ball and free-floating within the outer ball.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrea M. Valenti whose telephone number is 571-272-6895. The examiner can normally be reached on 7:00am-5:30pm M-Th.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter M. Poon can be reached on 571-272-6891. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov.

Should you have questions on access to the Private PAIR system, contact the

Electronic Business Center (EBC) at 866-217-9197 (toll-free).
